Objective

Passionate computer engineering student with strong skills in full stack development, AI/ML, and data analysis. Eager to contribute to innovative IT solutions by leveraging problem-solving expertise and real-world project experience, with a commitment to continuous learning and team collaboration.

Education

B.Tech in Computer Engineering (DS)	2022 – 2026
Balaji Institute of Technology & Science, Narsampet	CGPA: 7.0
Intermediate Education	2020 – 2022
Narayana Junior College, Hanumakonda	63.3% (633/1000)
SSC	2019 – 2020
Wisdom High School, Warangal	GPA: 10.0

Skills

Technical Skills: Python, HTML, CSS, Bootstrap, Databases (MySQL)

Soft Skills: Teamwork, Time Management, Collaboration

Technologies: Git, GitHub, VS Code, Docker (Basics), Linux (Basics)

Professional Experience

Lionix LLP — Python Developer Intern	Apr 2025 – Jul 2025
<i>Bangalore, India</i>	
- Developed and maintained backend components and web applications using Python. - Collaborated with the team to write clean, efficient, and reusable code. - Assisted in debugging, testing, and optimizing application performance.	

Certificates & Awards

AI & Data Science Intern	Jul 2024 – Sep 2024
- Completed an AI & Data Science internship with hands-on experience in Python, data analysis, and machine learning. - Worked on data preprocessing, visualization, and predictive modeling using industry-standard tools. - Enhanced analytical, problem-solving, and teamwork skills through real-world projects.	
Artificial Intelligence Intern	Jun 2025 – Jul 2025
<i>Codsoft (2 Months)</i>	
Developed AI-based models for data classification and automation tasks.	
AI-ML Virtual Internship	Apr 2025 – Jun 2025
<i>Google for Developers & AICTE (2.5 Months)</i>	
Gained hands-on experience in machine learning algorithms and data analysis.	

Projects

BitsBuzz — Student Management Alert System	2024
Developed a system to automate real-time notifications for attendance, results, fees, and events using Python, Flask, and Twilio for SMS/email/push alerts. Implemented role-based access and multi-channel communication to enhance student engagement and administrative efficiency.	

Hobbies

- Contributing to open-source AI projects
- Researching emerging technologies
